

## SERVICE BRIEF

# Microsoft Solutions Partner

As a Microsoft-certified reseller, we provide reliable products and services.

### Boost Your Business' Productivity

*As a leader in the software industry, Microsoft is well-known for providing quality products and solutions for small businesses.*

When it comes to staying productive at work, quality software and hardware can go a long way. With nearly 40 years of experience, Microsoft has been providing solutions for business owners around the world. Since YEAR, GeekBox IT has been providing these same fixes. Just like Microsoft, we want to see your business reach its full potential, and we can provide you with the tools to make that happen.

Members of the Microsoft Partner Network are certified to provide your business with:

- **Software and Hardware** - gain access to tools like Microsoft 365, and the necessary hardware to back it up.
- **Mobile Devices** - take advantage of mobile tablets like the Surface Pro running the latest Windows software and operating systems.
- **Online Applications and the Cloud** - Whether you need to access your files on-the-go with Microsoft OneDrive, or in-house with Microsoft 365, GeekBox IT can provide your business with the tools you need to jumpstart your business.

### The Latest Microsoft Hardware and Software

*Use the latest Windows operating systems and software to gain the upper hand on your competition and fast-forward productivity.*

Microsoft and GeekBox IT have a multitude of solutions for your business. Our trusted staff of professional IT consultants can help your business decide what's best for your particular situation.

- Take advantage of the Microsoft 365 including Word for word processing, Excel for spreadsheets, PowerPoint for presentations, and more.
- Maintain your Windows operating system for maximum system and network security with the latest patches and upgrades.
- Use Windows Servers to virtualize your business and data center needs.

**Microsoft** Partner

### Keep Momentum Rolling with Microsoft's Mobile Device Solutions

*With mobile devices from Microsoft, you can be productive anywhere, anytime.*

Sometimes all you need to be productive is a little portability for your technology. Microsoft offers several solutions that can help you be productive while you're out of the office, including tablets and phones, all with the latest version of Microsoft's mobile operating system.

With Microsoft's Surface brand of tablets, you can perform many tasks just as well as you could on a desktop, such as checking your email, web browsing, and more, taking advantage of both recreational and productivity-increasing applications while staying flexible and mobile.

### Access Information Anywhere

*Access your information and store it within a secure cloud using Microsoft's online applications and cloud storage solutions.*

GeekBox IT can provide you with cloud storage and access to online applications. You can access your files securely online by using Microsoft OneDrive, as well as collaborate in real time with Microsoft SharePoint.

With access to Microsoft OneDrive, you will be able to do everything online that you could do in-office on your desktop, and you'll have access to Microsoft Word, PowerPoint, Excel, and OneNote. You can make text documents, create charts and spreadsheets, and access slideshow presentations.

Microsoft SharePoint helps you keep your business organized by making it easier than ever to communicate with your team. Collaborate on group projects and make information simple and easy to find.
